

Making patterns

1. Make a repeating pattern in a line. You could draw shapes, use objects or use numbers – be as creative as you like. Can you make a 3-step repeating pattern?

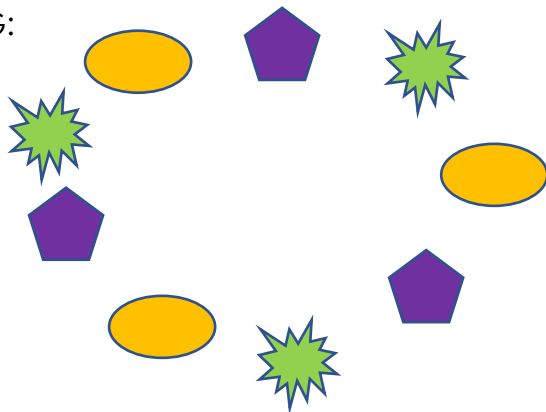

EG:

2, 4, 6, 2, 4, 6, 2, 4, 6

2. Make a circular repeating pattern. Again, you could use objects or draw your pattern.

EG:

3. Make a symmetrical pattern.
