Dear \_\_\_\_\_

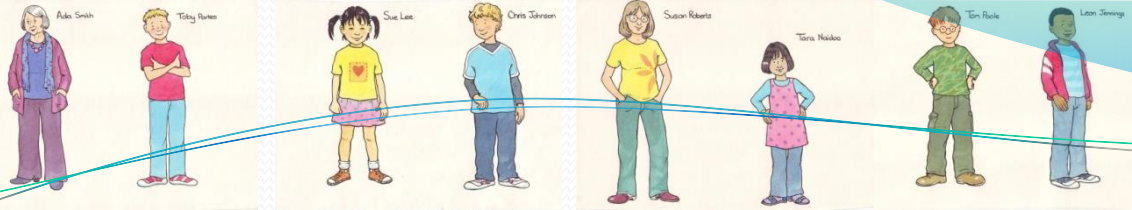

Please can you help me?

When my 11 year old sister leaves the bathroom in the morning she smells kind of nice but when I go into the bathroom after her the stuff she has been spraying around makes me cough, sometimes it even makes my eyes sting.

I don't like it. I tell my mum but she just says "It's her age." What can I do? HELP ME!

TOM

**KEEP ON TRACK**

# What did you notice?

- Cleaning products like bleach were left without a lid
- The cupboard with cleaning products in was left open
- Medication was left on the floor-what could happen?
- She was spraying an aerosol inside with no open windows- why is this bad?
- Toothpaste left on the bath with the lid off
- The tap was left dripping- why is this a problem?
- Did you find anymore?

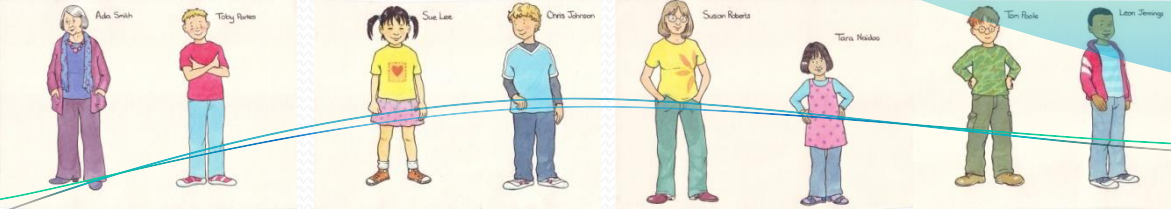

**KEEP ON TRACK**

# What are the safety issues?

- What could Tom's family do to help? How could they change their bathroom habits?
- Medicines and household products should be kept out of the reach of children.
- Sprays should be used in a well ventilated room.
- There are dangers in the home that we sometimes don't recognise.
- How could we use sprays and aerosols safely?

# Homework.

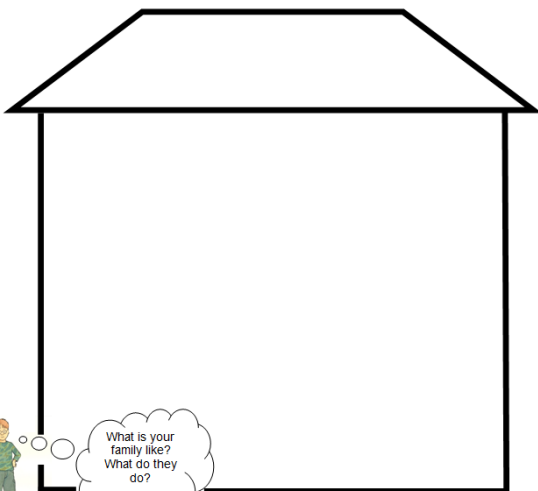

- Above the shop there is an empty flat. You need to design a family to live there.
- They could be anybody, but you must have a child of your age living there.

Name \_\_\_\_\_

Date \_\_\_\_\_

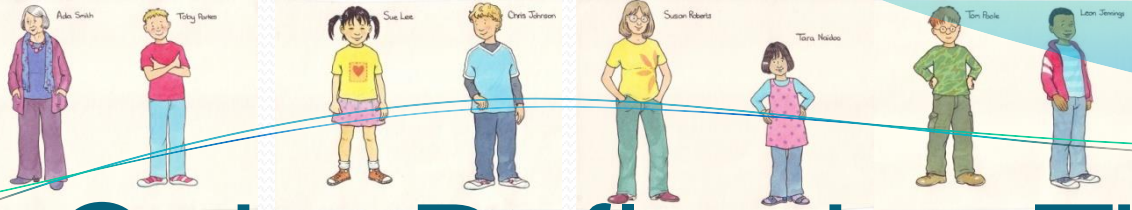

**Keep on Track  
Homework 1**

Draw the family who move into the empty flat above "The Corner Shop". Don't forget to include a child your age and name all the family.

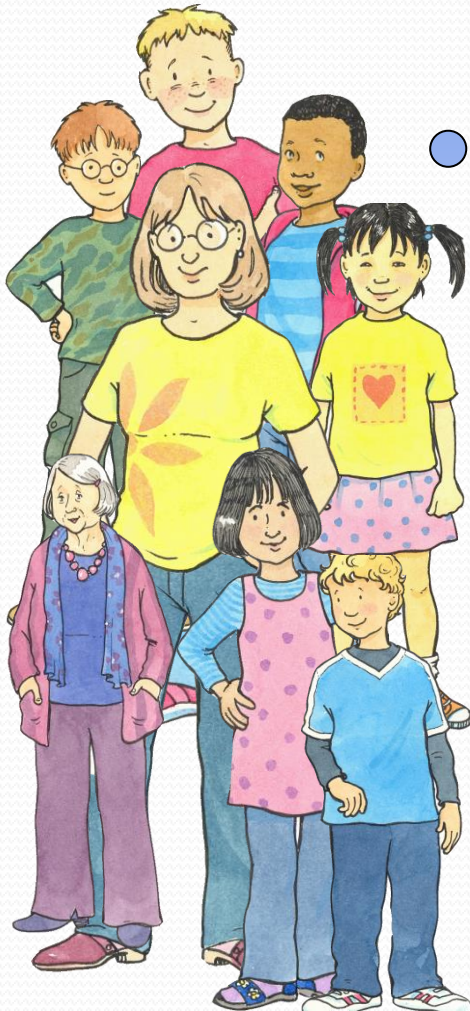

What is your family like?  
What do they do?
