

WALT: Measure and calculate the perimeter of rectilinear and other shapes

GOLD WILF: Accurate measurement and appropriate units of measure

Using a ruler, measure the sides of each shape to calculate the **perimeter**.  
Label the length of each side in cm and mm. Show your working in your books.

**Challenge**

In your books, draw as many rectangles with a **total perimeter of 24cm**. Label the length of each side in cm. Write a calculation to show the perimeter of each shape.
