

Art and Design Home Learning – Design and make a mosque **Lesson 2** w/b 18.1.21

- In RE we have been learning all about Muslim families. We have learnt that the mosque is a special place for Muslim families, as it is where they go to pray and be together.
- Hopefully last week you did lesson 1 of the art which was to complete the planning sheet in preparation for making your mosque! If you didn't do that last week, you can complete the planning sheet here ['Design and make a mosque planning sheet'](#) and it can also be found on the website.
- Your task this week is to make your mosque out of recycled materials from around your house! You might want to use things like old shoe boxes, cereal boxes, toilet/kitchen rolls, tins etc!
- Finally, once you have completed your mosque, you need to complete the evaluation part on your planning sheet. This part is for you to think about what went well, what you enjoyed, what you found tricky etc when designing and making your mosque.

Here are some ideas of other children's hand made mosques!

Have fun and good luck!
