

Sharing game 4.5.20

What you need

Number cards to 20

20 small items – could be lego bricks, coins, stones etc

2 or 3 plastic/paper plates

Your homework book and pencil

What to do

1. Choose a number card from your pile.
2. Count out that many objects.
3. Can you share them fairly between 2 plates?
4. What about sharing between 3 plates?
5. Explain what you have done and show it in your homework book.

Have fun playing the game.

There is a link on the web-page to watch to help your child understand what to do.

Extension:

1. Which numbers of objects can you share fairly between 2 people?
2. Which numbers of objects can you share fairly between 3 people?
3. Find a number of objects that you can share fairly between 2, 3 and 4 people.
