

Fact file - human and geographical features in South America

We would like you to research a human and a physical feature in South America. The features do not have to be in the same country, but you do need 1 human feature and 1 physical feature.

Human feature - A landmark that people have made like a building or monument.

Physical feature - A landmark that people haven't made like a river or mountain.

You can choose and research your own features but here is a list to get you started.

Human features:

- Christ the redeemer
- Machu Picchu
- Easter Island
- Nazca Lines
- White City of Arequipa

Physical features

- Andes
- Amazon River
- Atacama Desert
- Angel falls
- Mount Roraima

Some of the things you might want to include in your fact file.

- What country is it in
- When was it made/built
- How tall/long/wide
- Who built it
- Interesting facts

Layout your fact file however you want and if you can send it to year3-teachers@heymann.notts.sch.uk we love to see what work you have produced!
