

## Spanish pets games instructions.

Print off the cards for the pictures and the words for the pets in Spanish.

If you don't have a printer, don't worry. You can draw the animals on one sheet, and carefully copy the Spanish vocabulary on another sheet. Make sure that your words and pictures are in the same size though!!

Play these different games to help you remember and learn the Spanish for the pets.

1. With the cards face up, match the word and the picture. Make sure to practise saying the Spanish out loud while you are doing this.
2. Take away the picture cards and see if you can remember what the Spanish words for the pets are.
3. Have only the picture cards in front of you and see if you can remember what the Spanish for the pets are.
4. Have the picture cards on the left hand side and the word cards on the right hand side UPSIDE DOWN, but not in order. Turn over a picture card, say what it is in Spanish, then turn over a word card and read aloud. Do they match? If so, you've 'won' that pair. If not, turn them back over and try again. How long does it take you to match them up?

You can play this last game with someone in your family and teach them the Spanish as you go along!
