

My Deadly 6

This week, we would like you to watch some of the 'Deadly 60' episodes that are linked to South America. Your activity is to choose your own 'Deadly 6' animals that are from South America. You need to draw a picture of this animal, label it and explain WHY these animals have made it into your Top 6. Is it that they have sharp teeth? Could they kill a human being? Below are a list of episodes that you can choose from. You do not have to watch them all and we would suggest around 3.
