

Repeating pattern challenges

Ask someone at home to clap a repeating pattern for you to copy. Can you clap it back to them? Now make up one for them to copy.

Make up a repeating pattern using actions for someone at home to copy back to you. You might jump, clap, tap your head, turn around etc. Start with 2 actions in your pattern. Can you add more actions to your repeating pattern?

Use objects at home to make a repeating pattern. You could use toys, coins, fruit, leaves etc. Take a photo of your most interesting pattern to share with your teacher.

Look for repeating patterns in your environment. For example, in my garden I can see the repeating pattern in the photo – fence panel, fence post.
