

Over the next couple of weeks, we are going to be creating our own stone age dance as a class to Ug Stomp. We want you to listen to the song and make up some moves that might show life in the Stone Age. Things to think about is jobs they did, how they collected food, building/making houses. Some ideas might be:

- hunting
- gathering
- making tools
- making fire
- building tents
- farming
- throwing spears
- fishing
- bow and arrow

Follow this link to find the video of Ug Stomp- it may give you some ideas.
