

Amazing Stone Age facts

By jasmine
pimlott

The Stone Age happened around 2.6 million years ago. It is time that existed before history was recorded so archaeologists have used ancient artefacts that give us closer about how people live. This text will tell you about what they eat/ what jobs/where they live.

What they eat

In the Palaeolithic era there were hunters and gatherers. The men hunted fish, woolly mammoths, saber-toothed tigers, deer and the women gathered nuts and berries.

TO EAT!

What jobs did they do

**IN THE STONE AGE THEY SHARPENED SPEARS.
THEY CUT TREES FOR THE WOOD AND THEY
USED THE WOOD TO MAKE TOOLS LIKE
SPEARS.**

Where did they live

In the Palaeolithic they stayed in one place to make a farm and to have, sheep, cows, pigs and goats. They have sheep for the wool. They have pigs for the meat. They have cows, goats for the milk.

QUIZ
