

The
super
silly
Stone
Age!

Illustrated and written by
krushaan Singh

Stone Age happened about 2.6 million years ago.

It is a time that existed for history was recorded so archaeologists have used ancient artefacts that give us clues about how people lived.

This text will tell you about it when the Stone Age lived.

What did they eat?

They eat woolly mammoth's, woolly rhinos, fruit, deer, Fish, berries and nuts.

What jobs did they do?

One of their jobs were fishing that is were you stab A spear into the water but not all the time you catch a fish.

In the Stone Age they have to make Flint Spears also they like making antler headbands.

Where did they live?

They lived in caves,tents and they have to move to catch their prey.

They lit a fire to keep animals out of their cave
