

ALL ABOUT THE INTERESTING STONE AGE

Illustrated and written by saarim
Khan

Stone Age lasted a very long time ago that that nobody know's when it ended or started. It lasted around 2.6 million years before history existed . This tells you what they ate where they lived and which jobs did they do.

WHAT DID THEY EAT ?

They hunted animals on land. Also they hunted animals under water. In the forest, the woman picked juicy , blue Berries and hard , brown acorns. In the Mesolithic age they had farms to kill the animals in the farms like pigs,sheep and cows.

WHERE DID THEY LIVE?

They lived in cave and moved from cave to cave. They lived in the entrance of the cave where it was warm and light. The people were moving around not so much and they built wigwam shaped shelters in groups. Campers were moved in different seasons. In the Mesolithic age,The wigwams were built of wood,sticks and animal skin.

How did they kill a mammoth.

Answer

What jobs did they do ?

The men's jobs were to make tools like spears , bows and arrows . Another job is to put fish on a rack like animal fur or animal skin. By striking Flint stones together or turning a wooden drill. Fire is used for cooking. To keep warm and sometimes to scare animals.
