do?**

QzQll **What did they eat?**

All Stone Age men hunted woolly mammoths, sabre tooth tigers  
also they hunted fish.

Most Stone Age people ate juicy berries and crunchy nuts. In the  
Stone Age they farmed the land. Many had sheep, pigs, and  
cows. They had farms so they didn't have to move.

# What jobs did they do?

In the Stone Age they made fire and told stories. All Stone Age men made spears and arrows for hunting. All Stone Age women prepared me and smoked fish. They made houses from animal skins and sticks.
