What did they eat in the Stone Age?

In the Stone Age, they had to hunt for their food. They hunted and killed animals such as huge woolly mammoths, scary sabre tooth tigers and massive horses. In addition, they would use spears to kill fish. Also, they gathered juicy berries and hard nuts from plants and trees. As well as farming animals such as pigs and cattle.

What did they eat?

In the early Stone Age, they lives in caves. Many people did cave.paintings on the wall because in was fun to do. They moved all around Europe because they didn't have enough food to stay in one place. Later on in the Stone Age, they lives in huts made out of straw, animal skin, grass, sloppy mud twigs and sticks.
