What did they eat page 2.

What jobs did they have page 3

# What tools do the stone age people use?

Stone Age people used tools like animal bones sharp **antlers** from a deer stone spears they also used hand axes made out of bronze and stone.

To catch birds like hark they used a bow and arrow because they fly which makes them very fast. And bow and arrow.

# what did they eat?

Normally Stone Age people ate nuts and berries because it was very hard to get the meat. like woolly mammoths **sabre tooth tiger** and rhino.

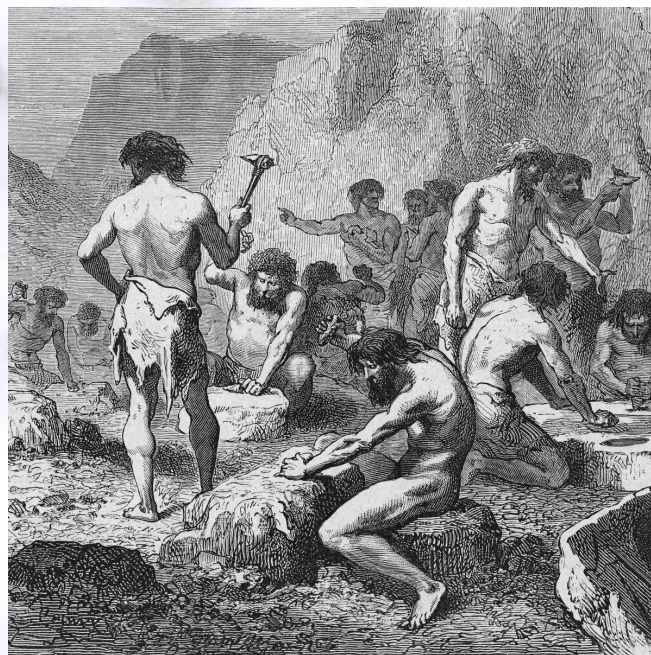

To kill the **mammoth** they work it into a bog and it was so heavy it sank and then after they killed it they ate it if they were lucky.

# What jobs do they have?

They have different jobs like four people could cook and seven will hunt. They would have started farming so they work there with their parents and friends. They milk the sheep and the cow and then drink it.

# glossary

**Antlers** deer ears that are very pointy.

**Mammoth** is a creature it is like a fat hair ball

**Sabre tooth tiger** is also a Stone Age animal it is like a leopard but it is now dead.
