

The Stone Age

The Stone Age was a time where people started using stone to make tools. the Stone began 2.5 million years ago in Europe.

What did they eat in the Stone Age?

In the Stone Age, they had to hunt for their food. They hunted and killed animals such as huge woolly mammoths, scary sabre tooth tigers and massive horses. In addition, they would use spears berries and hard nuts from plants and trees. As well as farming animals such as pigs and cattle.

Where did they live?

In the early Stone Age, they lived in caves. Many people did cave paintings on the wall because it was fun to do. They lives in stone caves and tents made out of animal skin, mud and hay. They had to move houses to follow the food. Some people moved with small villages.
