

The Stone Age began around 2.5 million years ago.

Rote by Martha

What was life like in the Stone Age?

Wat did they eat in the stone age

They ate little scaly fish they also ate Woolley mammoth and Woolley rhino .

They hunted for a odd sabre tooth tiger and Woolley mammoth also woolly rhino.

They drank animal blood and water they also made bear but not like ours it was not made out of the same things which were not as good for you

woolly rhino Are very similar to woolly mammoth The woolly mammoth is taller and the woolly rhino is shorter.If you Cart a woolly mammoth you could get some food for the year and more. The animals were very helpful for ceasing warm they took sheep fear but don't kill them to get milk.

What is the Stone Age house is like

House were made out of wood and straw Well the big one is made out of wood and for the smaller ones were made out of spit and manure and moor.

What are Stone Age tools looked like

Making tools is a very important job because it makes life easy and gets you food.

It is also a very important job to be a hunter gatherer Because it gets your food

How they made fire in the Stone Age

In the Stone Age they didn't have lights they had to set a camp fire with two sticks or use friction with one stick.

In the Stone Age they have together sticks and light one.
