people use? Page 3

# What do they eat?

They ate berries and they ate nuts.

The type of berries and nuts they ate are raspberries, blueberries and hazelnut.

When they hunt a mammal they get the meat and then they eat cook it.

## What did they eat?

- In the early Stone Age they didn't have fire to cook things so they ate things raw like meat {which could give them a disease}, grain, wheat and rice.
- They hunted by using tools like spears and knives to stab the animals and kill them.

wiseGEEK

what  
did they  
Where?

The Stone Age people wore cloaks  
and animal skins.

Stone age people made close out of animal skin.
