

Friction experiment recording sheet

	Time for attempt 1 in seconds	Time for attempt 2 in seconds	Time for attempt 3 in seconds	Average score in seconds (Add up the 3 times and divide by 3)
Ramp with no material on				
Material 1				
Material 2				
Material 3				

Remember..
The faster the time, the
less friction there will be

The material which caused the least friction was..

The material which caused the most friction was..

Remember to write out what you have found out about friction for your Teams assignment. Think about what type of materials might cause friction.
