3 groups of 5

$$3 \times 5 = 15$$

Challenge: Jessica has 12 children coming to her party. She wants 2 cakes for each person. Write the number sentence and draw the array (groups) to work out how many she will need.

Write it out **exactly** as I have above to help you.

12 people want 2 cakes each

12 groups of 2

$$12 \times 2 = 24$$
