

Print or copy the table and sort the pictures or statements to make the facts correct for each state.

State	Particle Arrangement	Particle Properties	Material Properties

solid	Particles are close together, but random. They can move over each other.		Keeps its shape unless a force is applied to it. Remains the same volume.
liquid	Particles are spread out and can move about quickly in all directions.		Does not keep its shape. Can spread out to fill the space it is in.
gas	Particles are closely-packed in a regular pattern. They vibrate on the spot.		Takes the shape of the container it is in. Stays the same volume.
