Does your mind
feel calm and
ready to learn?

Over the next few slides, you will see pictures of gardens. You need to write down all the decorative items you can see. Make a list and write them all down. Let's see how many you can get!

- Today, we are going to be designing a garden for someone who faces a particular challenge.
- Can you think of people who may face particular challenges?
- One example might be someone who is blind
- You are going to have this lesson and the next 2 lessons to design your garden of dreams for someone who faces a challenge.

Let's think about..

What might someone who is visually impaired want in a garden?

What might someone who is hard of hearing want in a garden?

What might someone who is in a wheelchair want in a garden?

What might a child who has no outdoor space want in a garden?

The task involves:

- Choosing who the garden is for
- Designing the garden and making a poster showing the design
- Plan an 'opening event' for the garden opening
- Deciding on costs: You will only have a certain amount to spend
- At the end of the task you will present your garden design to the class, explaining your ideas.

Roles:

Landscaper: draw the finished design onto the poster.

Budgeters: keep track of the costs so that you don't spend too much
Event planner: plan the opening event for the garden.

By the end of the lesson you need to have..

- Decided who you want to design the garden for
- Have finished the 'Our Garden' planning sheet
- Lesson 4: Spending your budget
- Lesson 5: Designing your garden
- Lesson 6: Reflecting and Presenting
