

Bronze Wilf : I can recognise and explain in simple terms the 3 main types of tectonic plate boundaries (Geog)  
I can use my knowledge of topic words to complete a table accurately, researching using a dictionary if required ( Eng)

# Plate Tectonic Boundaries

Using the words at the bottom of the page, fill in the table describing some features of tectonic movement.

Type of Margin	Divergent	Convergent	Transform
Diagram:			
Motion			
Effect			
Structure created			
Volcanic activity?			

Words: Ridge/Rift No Destructive (rock destroyed) Subduction  
Yes Lateral sliding Constructive (rock formed) Trench None  
Conservative (rock neither formed or destroyed) Spreading Yes
