

Make a poster – Instructions

You can make your poster about any animal that you would like. Here is the information we would like to see on your poster:

- ✓ A title
- ✓ A drawing or picture of your chosen animal
- ✓ What classification your animal is e.g. mammal
 - ✓ Where your animal lives
 - ✓ What your animal eats
- ✓ Features of your animal e.g. 2 wings, beak, feathers
 - ✓ Is it a carnivore, herbivore or an omnivore?

You can use any materials you have at home to make your poster. You can also use your ICT skills if you wish and make your poster using a laptop or an iPad. Remember, we are thinking about **non-fiction** texts, so you need to use real and factual information on your poster.

This is a **Teams assignment** so please upload a finished picture of your work to Microsoft Teams.

Look at the next page for Miss Johnston's example poster.

Elephants

2 ears

2 eyes

trunk

2 tusks

Elephants are **mammals**.
This means they have warm
blood, are hairy and give
birth to live babies.

Elephants live in either
Africa or **Asia**.

Did you know?

Elephant tusks are
actually huge
teeth!

Elephants are **herbivores**,
which means they eat
plants.
