Deadly dragon comes to school...

Last Monday, an interesting visitor turned up at school! At 5 ' o clock in the morning, the alarm went off and the site manager was called. Ms Noble soon came to school to find out what was happening too. Later on, a neighbour saw the fierce dragon was seen flying over Derby. Ms Noble thought the scaley dragon had come from the mountains in Wales.

When the dragon arrived in the Year 1 classroom, it smashed chairs, turned over tables and burnt the whiteboard! |
