

Les transports

(Transport)

Bonjour tout le monde! I hope that you are all keeping well. For the next few weeks of French, we are going to learn the different modes of transport. Remember, click on the arrows next to the words to hear them, and repeat them out loud. You can do this many times to help you learn. On the next slide are the instructions for 3 week's work. I hope that you enjoy the activities!

A bientôt!

Les transports

(Transport)

Week 1: Watch presentation and do all of the activities within it, making sure to repeat the French out loud. Try to do this twice within the week – more if you would like/are able to!

Week 2: a. Re-watch the presentation, but try to say the French before you see/hear it, to see how many you can remember.

b. Do the picture labelling exercise. Look at the French word boxes.

Remember that un and une both mean 'a' in French. Un is for masculine words, une is for feminine words. Copy the French carefully above the word, then write what it means below in English.

c. Match the words with the pictures. You could also play a game. Have the words face down on one side, and the pictures face down on another. Can you turn over a word and find its matching picture?

Week 3. Do the wordsearch.

WALT

To learn the French for the different types of transport.

WILF

- I can name different ways of travelling.
- I can identify types of transport using words and gestures.

Click play buttons
throughout to hear
phrases and words.
