

Safer Internet Day

Whole School Activity!

We would like you to make a poster to explain how we can create an internet we trust.

On your poster you could include:

- Questions to ask when looking at things online. E.g. Who wrote this? Is this true?
- Words or questions we could ask to spot if something is true.
- Pictures of what a safe internet would look like.
- Trusted adults you could tell if you are worried about something you have seen online.

We look forward to seeing your posters! Please, send a picture of them to this email address for us to add to our Heymann blog.
