

# ART - PRINTING

What art technique have all these artists used?

What materials have been used?

# PRINTING

The technique of printing makes a copy. You can print the same picture lots of times. When you print you can use different colours or print different layers of the picture.

Can you think of any objects which you could use to make an interesting print?

Here are some examples of every-day objects you could use to print.

Watch this video to get an idea of how printing works - <http://www.bbc.co.uk/education/clips/zs67ycw>
