**WALT:** To write some French sentences to say what there is/isn't in a town, using a model sentence.

**WILF:** Use sentence 1 as an example, write in French what there is/isn't in the towns listed, using the pictures. Remember for negative sentences you do not need the un/une with noun. Il y a une poste = there is a post office, but il n'y a pas de poste = there isn't a post office. À = in (when talking about what's in a town)

**Optional Extra:** Can you then write some sentences in French to say what there is/isn't in your local area?
