In today's lesson we are going to be thinking about different voices.

Watch back over the video of the story and listen carefully to the different voices used for the characters. The voice links to what type of character they are and also to how they are feeling.

I want you to try out some new voices for these characters. Use the speech from the book and have a go at reading the text in different voices.

Here are some ideas of different voices you might try:

- sad voice
- slow or fast voice
- High or low pitch
- whisper
- squeaky voice
- deep voice
- soft voice
- aggressive voice
