

# Heymann Easter Egg Challenge!

Here are your challenge activities for Easter.

Colour the egg in when you have managed to complete the activity.

Can you collect all 6 eggs?

Take part in an Easter Egg Hunt. Make it more exciting by hiding fitness challenges and math challenges around the house and garden for your family to take part in.

E.G.? EG What is 4 squared? Once you have answered you must do ten star jumps before going to the next question!

Have you seen the 'Toilet Roll Challenge?' How many keepy-ups can you do with a ball?

Make it harder by trying it with your eyes closed. Can you do a family challenge and see who can get the most?

Can you create a poster about the pilgrimages topic we have studied in RE? Could you write about the tomb Christians believe Jesus was buried in in Jerusalem and link it to the story of Easter? Research online in case you have forgotten!

Design your own easter recipe and try to make this yourself, could it be your own unique flavour hot cross buns? An easter bunny cake? Cornflake easter egg cakes?

Can you decorate and design your own egg? Could you use a range of patterns and designs linking to your favourite thing about Easter or spring time?

Create a work-out or dance routine for the whole family to a song of your choice! Could you film it and send it in to the Year 5 email address?
