

# Parachute Challenge!

Your challenge is to make a parachute for a toy or teddy to see if you can drop it and have it land safely on the ground. You will need to use your scientific brains to decide which materials you think will be best for the job.

**Our question:** What material will make the best parachute?

**Your prediction** (which material do you think will work best?)

---

Draw and label your parachute here:

**Which material worked best and why?**
