

As Spring is finally here, we thought it might be a good idea to help children to understand and connect more with nature. There are some fabulous ideas on the RSPB website from helping hedgehogs, learning to name birds and plants and building bug hotels (remember to only pick the activities you can do safely at home or on daily walks). Please have a look and choose your favourite ones. If you have any pictures to share with us, remember to email them to year 1, we love looking at them.
